## ASKS SUPPORT OF PUBLIC FOR ITS LYCEUM COURSE

At last night's entertainment at the Calumet theater, under the auspices of the Y. M. C. A., at which Ross Crane was the attraction, Attorney William J. Galbraith made a few remarks before introducing the entertainer. He spoke on behalf of the board of directors of the association. He stated that when it became known that the Calumet Woman's club had decided to drop its lyceum course, the Y. M. C. A. rather than lose such a series of entertainments for Calumet audiences, decided to step in and fill the breach. The association has gone to great expense in this matter, he said, it costing at least \$1,000 to guarantee the entire course. Mr. Galbraith asked for support for the entertainments and said he believed Calumet would respond quite readily. He referred to the educational work that is being done at the Y. M. C. A., especially among foreign born residents, who are being taught English. He mentioned incidentally, too, the fact that the work of an interpreter at circuit court examinations for citizenship has been eliminated thus making it imperative on the part of the applicant to know the English language.

Mr. Galbraith further announced that the date for the Andrew Gillis lecture had been set. Rev. Mr. Gillis will come to Calumet on the evening of January 11. He is a preacher and a lecturer, and the press of the country has spoken very highly of him wherever he has appeared.

The next course to be seen at the Calumet theater under the auspices of the Y. M. C. A. will be the Parland-Newhall company, which comes here on November 22. The company consists of four members, all of whom are musicians and vocalists. Their hand-bell ringing is exceptionally fine, and in addition they play on all kinds of musical instruments. As vocalists they are credited with having excellent voices.

## CLOCK IS SET TODAY.

Town Time-Piece is Placed in Good Working Order Again.

Red Jacket's town clock was tested again today to see whether the workings were damaged in the recent accident which happened to it. After a test, Jeweller Ellis set the clock. This took about an hour as the hands had to be repeatedly moved until the clock struck the right number of times in conformity with the position of the hands. Up to last evening the clock was about five hours behind time and striking accordingly. The electrical decorations that now adorn the outside of Red Jacket's townhall are to be removed as soon as the weather is more favorable. The contract expires on November 1, but it is not believed that the village officials will wait for the expiration of the contract. It is realized that temporary electrical wiring will not do in this region, where wild northwest gales are likely to raze at this time of the year, hence the desire to protect the clock by removing the wires.

## SOME PAST WEATHER DATA.

The recent storm has caused some of the old-timers, and those who keep records of the weather from year to year, to get out their record books, and look up some data concerning Calumet's weather. On full seasons that have passed, one informed The News this morning that the first big storm last winter occurred on November 4, or almost one month later than this year. There was a light fall of snow last year, however, as early as September 28. A lot of snow fell on November 9, and winter then set in for good. On that date sleighs were seen for the first time, and they were in use from then on.

On October 10, 1901, Calumet experienced just such a snow storm as has just passed over the district. In the intervening years until now no such storm has been recorded, as far as local records go.

## PYTHIANS WILL ENTERTAIN.

At the regular meeting of the members of Charity Lodge, Knights of Pythias last evening, it was decided that the lodge would give entertainments once each month. The nature of the entertainments will be varied, and their object is to promote interest in the work which is being done. The proceeds will be used to provide a fund to defray the expenses of the degree team while it is at the convention of the upper peninsula league next year.

## FOOTBALL TEAM'S LINE-UP.

Calumet High School Will Have Strong Team Against Hottan Saturday.

It is practically certain, that the Calumet and Houghton football teams will clash tomorrow afternoon at the Y. M. C. A. park. During the bad weather the local squad has been practicing at the Y. M. C. A. doing some signal work. Since the game with Hancock the line-up has been greatly strengthened. The weight of the team remains about the same, averaging about 145 pounds a man. The following is the probable line-up as given by Coach Brown:

Full back, McAuley; right half, Eto; left half, Lavers; left end, Thomas or White; right tackle, Phillips; left tackle, Fridmold; right guard, Torkola or Allen; left guard, Petermann; center, Nicholls; quarterback, McClelland; subs, Jackson, Newberg, Killmar and McCune.

The freshmen A and B classes held meetings yesterday afternoon and elected the following officers:

Freshman A—President, Ed. Loomis; vice president, Genevieve Rowe; treasurer, Olive Hodges; secretary, Glen Hoskin.

Freshman B—President, Earl Trachten; vice president, Nina Vivian; treasurer, Tena McDonald; secretary, Glen Hoskin.

## WILL GET SILVER MEDALS.

Presentations Made to Kearsarge Cricket Players at Concert Oct. 23.

The Kearsarge Cricket team will give a concert in the Foresters' hall Kearsarge, a week from tomorrow evening, October 23. An excellent program is being prepared and it promises to be one of the banner events of the season at that location. Occasion will be taken during the evening to present Messrs. Thomas Ralph and Richard Rosakilly with silver medals with raised gold figures, for the best bowling and batting averages of the club for the season just ended. It is likely that Capt. Joseph Riscione will make the presentations. Capt. Riscione is a strong supporter of the club, and it is the general wish that the presentations be made by him.

Some of the best talent in the district has been asked to take part in the program. There will be vocal and instrumental music, recitations, and other features that go to make up a successful concert and a pleasant evening's enjoyment. A large attendance is looked for.

## VILLAGE TAXES COMING IN.

Treasurer Joe Cuto of the village of Red Jacket, is making good headway with the tax collections. A total of \$16,000 has already been received, leaving about \$4,000 more to be secured. As pay day occurs on Saturday, Treasurer Cuto expects to considerably reduce the outstanding amount by the latter part of next week. It is believed that there will be little or no delinquent taxes reported to the county treasurer by the village of Red Jacket. Indications are good for a thorough collection.

James Nesbitt, the Sixth street barber, has sold out his business.

Prof. Thomas Wills of Calumet left this afternoon for Chassell where he will repeat his moving picture entertainment tonight and tomorrow evenings.

Boston.—The advance in price of Isle Royale yesterday was accompanied by reports that the company had struck the Baltic lode. This statement was, however, denied in fairly authoritative circles where it was said there was not the slightest truth in the report. What appeared to be a much more likely story was that Calumet & Hecla was buying the Isle Royale and Atlantic for the purpose of operating these properties co-jointly with Superior. It has been noted that ever since the announcement of a purchase of a large block of shares of Isle Royale company by the Calumet & Hecla company, the price of shares of the former's stock have been very erratic. Just prior to the definite announcement that the deal had been effected Isle Royale advanced to 33%. This high mark has never been reached since while in the meanwhile the stock has sold as low as 22%. According to a number of leading brokers on the street the stock is one of the hardest to buy at the market quotations when any considerable block of shares is wanted, any real demand causing an immediate advance in prices. The indications are that the stock is left unsupported until it declines to a satisfactory price and then is absorbed until the buying sends the price up. This buying is believed to be for Calumet & Hecla. As it is known that at the time the Bigelow holdings were purchased an offer was made for another large block, which, however, could not be had at the price offered.

## SUPERINTENDENT KRAZ HONORED BY GOVERNOR

Supt. H. E. Kraz of the Calumet public schools has been honored by Governor Fred M. Warner of Michigan by an appointment on a commission on industrial education in the public schools, in accordance with the acts of the last legislature. The appointment was made this week and the announcement has just been received in this city. Other members of the commission are W. R. Burt of Saginaw, W. H. French of Lansing, E. W. Yost of Detroit, George Magee of Cadillac, S. O. Hartwell of Kalamazoo, and Chas. H. Johnson of Detroit.

The appointment is considered by Mr. Kraz's friends in Calumet a signal honor, and a recognition of his ability. The fact that Supt. Kraz has had considerable experience with the industrial educational work in the public schools probably had some effect upon the appointment.

The commission will seek to encourage work in the industrial lines in the schools of the state, and in its official capacity will come in touch with much that is being done, and the most advanced methods in this work. E. C. Anthony of Negaunee has been named as a member of the commission which with Governor Warner will visit other states and investigate the convict labor system, to determine whether convict labor should be abolished. This commission was authorized by the last session of the legislature.

## NEW PLANS FOR LIGHTS.

At the next meeting of the Calumet Businessmen's association, plans for street illuminations which have been worked satisfactorily in other cities where they have been tried will be shown to the business men. Since the removal of the street lights which were used during the conventions, their absence has been the cause of considerable comment by the residents of the town, and if possible a scheme will be worked out whereby the town will have a new system of lights. Only two plans seem to be feasible in this section, to arrange a system whereby lanterns can be arranged from the business blocks along the street, or a system of illuminated arches. It is not thought that the latter plan will work satisfactorily in Calumet because of the narrow width of the street.

Whether or not the businessmen will look with favor upon the plans to be submitted is a question but some substitute for the lights which have been removed will be urged.

## WILL AUDIT ACCOUNTS.

The auditing committee of the Calumet conventions committee, and the secretary will meet some evening during the latter part of next week to complete a detailed statement of the receipts and expenditures of that committee during the past summer. The report, when it is ready, will be published so that the business men and others may see the accurate and complete statement.

## LOCAL BREVITIES.

The New Idea club was pleasantly entertained at the home of Mrs. Joseph Matthews Wednesday afternoon. A dainty lunch was served.

Patrick Ryan, John Lamore and Mart Hogan returned yesterday from Detroit and Chicago, where they have been visiting for a week. They say Detroit play two games of the championship series, Mr. Ryan informing The News that the teams are playing great ball, especially Detroit.

Supreme President A. A. E. Brien of the Canadian-American fraternal society, and Organizer Franceur, who have been spending a couple of days in the copper country, were photographed in the snow on Sixth street this morning. Mr. Brien will treasure this picture as a souvenir of October weather in the copper country.

Patrick Lynch of Coleraine, Minnesota, arrived in Calumet today. Mr. Lynch reached here too late to attend the funeral of his brother, Daniel Lynch, but will visit with relatives here.

Fifteen cartons of grapes for wine making purposes have been received by the wholesale dealers of Calumet. Mr. and Mrs. Joseph Crusciano and three children left this week for Deadwood, S. D., where they will locate in the future.

Nell Harrington is visiting in Marquette.

Rev. and Mrs. A. J. Peterson have returned from Buffalo, N. Y., and Ridgeway, Pa., where they spent the past two weeks.

Mrs. Joseph Knight is home from Detroit and other cities where she spent the past two weeks.

D. Salassa, who has been conducting the Copper Range cafe, has accepted a position with the Miscowauk club.

Mose Bandettini of the Michigan House and Dr. M. A. Thometz are expected home tomorrow or Sunday from Arizona points.

W. J. Oggers has gone to Detroit, where he will visit with friends for a couple of weeks.

William Kemp of Temple street, sustained a broken hand through a fall of rock at the Kearsarge mine, where he was employed.

Contractor Edward Useth has a force of carpenters at work completing the interior of the new one-story Useth block, corner of Sixth and Elm streets, just opposite the Calumet theater. This building will be ready for occupancy some time next month it is expected. The Wieder Harman company is to occupy the structure.

Contractor Will Milford has been awarded the contract to remodel the old Griddle residence, which is to be occupied by Rev. Fr. Klopke, pastor of St. Joseph's Austrian church. The building has been placed in position adjoining the Austrian church.

Richard King of Eighth street has recovered from his recent illness and is again attending to his duties.

Tomorrow will be pay day at the C. & H. and other mines in this district.

The local sewers are acting splendidly in taking care of the heavy mass of water that is resulting from the rapidly disappearing snow. It was feared at one time that there would be an overflow of some of the storm sewers, but nothing of the kind is noticeable.

On account of going out of business I will call attention to those who are indebted to me, to come and make satisfactory arrangements with me at once.

LOUIS SIBILSKY.
